Avow Systems, Inc. announces agreement with Texas A & M University-Corpus Christi for Electronic Transcript Processing

Denver, CO – April 19, 2011 - Texas A & M University-Corpus Christi has selected Avow Systems to provide electronic transcript services that will allow students and alumni to order an official Certified PDF Transcript™ for secure electronic delivery to themselves, other higher education institutions, and third party recipients. After careful evaluation, the Office of the University Registrar selected the Avow solution to automate the process so it can be available to all students and alumni by interfacing Avow's Authentic Document Delivery Service (+ADDStm) with the University's Student Information System (SIS).

Availability of electronic transcripts is expected to improve services for students and alumni, as well as document recipients. +ADDStm will increase processing efficiencies for fulfillment when compared to paper transcript handling and distribution. "This new capability will allow our students and alumni to experience real-time ordering and delivery of official academic transcripts in a matter of minutes," said Michael Rendon, University Registrar.

"We are extremely proud to partner with a premier institution such as Texas A & M-Corpus Christi as they continue to exceed the expectations of their students and alumni in terms of service," said Mark Johnston, Managing Director of Avow Systems. "Our Authentic Document Delivery Service (+ADDStm) continues to gain worldwide adoption by leading institutions like TAMCC who are looking to save time and money. The Certified PDF Transcript™ is quickly becoming the standard for official academic transcripts.

About Avow Systems

Avow Systems, Inc. is a software-as-a-service company which offers the only real-time, fully integrated service that supports ordering, PDF generation, certification, rights management and secure delivery of electronic transcripts as well as other high-stake documents. Avow hosts and maintains its patent-pending Authentic Document Delivery Service (+ADDStm) for leading institutions nationwide. For more information, please visit www.avowsystems.com.
